The work

The castle

I enjoyed a lot the trip in the boat

Weather

I really enjoyed the people that made part of this project. That was the most important thing because they were really open and nice, so I could work better with them

Familie was very good!

That I've met a lot of teens with the same problems as me and I have been understood by others.

Good families

Living in the different country

met with new people

Positive

Spending time with the students from other countries

getting to know a different country and other people

The new experiences that I had, experiences that I will never forget, and I met amazing people, I saw amazing places and had the opportunity of living in Croatia for a week, with my friends.

The good relation established between teachers of different nationalities and between students of different nationalities. I also enjoyed the cultural experience and the share of ideas and experiences.

Meet the two days at the start in the castle. The excursion to the coast. The ties that have been created between the students, with the students of the other countries as well as between themselves.

friendship

Working in group

Probably the host family. I loved them.

Meeting people from different countries

What have you found negative or felt uncomfortable with?

20 responses

Lack of computers

The organization in general

.

bullying

The difference between ages, because my host was 12 years old so in the afternoons I couldn't be with my friends. But it was not a really big problem.

Unhealthy food.

Leasing, because I really Madrid great Friends.

Badly organized workshops

Was A little bit boring

we need more days

Not negative

The trip was too short to visit the whole city of Rijeka

in the beginning, people from different countries did not hang out that much

Nothing, I enjoyed every single second there

Nothing... I didn't feel uncomfortable.

I think there are some aspects that should have been taken into account and that would have helped to do more quality work:

- You should have thought about the necessary infrastructure to carry out the task to perform, such as connection to Wi-Fi and the lack of sufficient computers (at least one for each two people).
- Inadequate use of the phone while working.

On the other hand I would like to emphasize the lack of cohesion activities of group and / or knowledge of peers when they were in the castle.

culture of the students

Nothing

Nothing.

We hadn't presented ourselves, so it was kinda messy

How do you feel in general at the end of this exchange?

Good

Excellent!

I feel good

I'm very happy because I think that I have learned a lot of English and now I speak it more quickly and I think that I speak it better too

This has been the best exchange I have ever done, the organization has been so good and I have been so happy to be part of this incredible project. Thanks.

Good.

I feel very realized and happy of what I experienced there's.

Fine

sad because it finished

It's very good

Very happy and satisfied with the experience

it was great and i would definetelly do it all again

I feel extremely happy and grateful, I hope I'll have more experiences like this in the future, everyone should participate in Erasmus and have this kind of opportunities

I feel even more motivated to do projet work with my students.

I'm very happy about how everything went, there was no problem, the students had a great time, they made good friends, they felt very welcomed by the families.

The teachers and the institute have also been very welcoming with all of us.

The activities that we have proposed have liked us a lot, and Rijeka loved it.

Maybe I would not have done a little more work at the start and leave the recreation by the end of the week.

good, but miss it, so much

Inspirational experience

I feel awesome! It was really good!

It was a great experience that I wouldn't hesitate to do it again
